Summons of Rapture

Truth is my Compass, & Wisdom my Helm.

*Once you know, you cannot unknow.
once you have seen, you can never unsee.
once you have allowed yourself to feel,
you are freed from silence; for the submergence
of one's truth only births havoc within the self.*

Tribunal Report

Grandpapa,

The blood was mine. Her wounds were mine to heal. I sought
 refuge among the humans. I trust the constancy of their
 hope. But Grandma never knew many things. She was a
 Dom. A Queen toppled by the constructs of white supremacy.
 Because she spoke, I knew I could hear. Now that I write,
 Father, tell me what is truth?

“I am a head with no limbs, speaking my last words:
 ‘If she is not my wife, I am her property’.”

I plead, grant us a single kingdom. My heart and her eyes are of
 the same matrilineal blood river. North Carolina, from place
 unknown. Stardust and Ash.

As a cat in heat, I tagged Lagos with my menstrual blood. After
 my bee sting in Staten Island, and Northampton. The moon
 sang to me. I spilled blood in Argentina. Naked under a waterfall
 in Tennessee. Baptized in Miami.

Turned my beacon on in Michigan. I whispered in San
 Francisco and bared my soul in Oakland. Berkeley or
 Terminator? New York is a Circus. Banana, please. Radiation
 and roaches. Jumanji or Jungian Psychotherapy? Ethnographic
 Orientalism.

For her, I have murdered with the insane in asylums. During our psychiatric cocktails of Haldol, we individually inspected sentence. YokoOno, John Lennon was the last. Hugh Jackman, I caught her. John Fitzgerald Kennedy was not fiction. We are not alone. X-man.

MKULTRA has been extremely successful. Rape is the systemic weapon for psychospiritual warfare. I am a special victim.
Familial unknown.

Japan, you are my mother. I still bleed.

27 years. BLACKOUT

Surreal Humor

When Dave Chappelle returns from Africa, he tells his social worker that he smokes weed. Because he and Morgan Freeman are the last two black men in America, he experiences anxiety.

Raven Symone is just platform. We are in a jungle, a genetic cesspool. Weed heals the inner ear. Whoopi Goldberg, what is dyslexic? What is language? Can you hear? Korea, we need translation. Bill Cosby has eyes.

Me too old, to raise a hand. I am Great- Grandmother, washing away the trauma. I am mourning; I slumber in a graveyard. My insulin is low. Knock out. \$3.

When can I have solace? Me no know time. I lost my mind. Dutty Wine. Dutch. Ash.

Criminal Intent

Dear Psychiatrist Patrice:

This is rather odd, but I believe you are Penelope. I've ran through the Diagnostic and Statistical Manual of Mental Disorders; and am certain that you are my elder. Why is my blood prescribing me poison? My child, what womb bore you life? I speak neither French, nor Creole, but with English, I know insanity is a hoax.

The rape has jumped to the higher mind. I clammy bloodline. No one trumps a Samoan Queen in a Colombian Prison. I ask myself, "Vietnam, how much rape did cocaine bring to you?"

Because here, in Washington heights, I still see my blood dying for dick and crack. Children with no mothers and pregnant. I die.

I am in a Section-8 crib off Holland. I never learn how to swim or drive. I never earn more than \$12,000 in my life. I was never good with math. But I know that my blood is my own. My liver is pure. I drink my own piss, come out me body, SPEAK.

We play sonic tag.

A New York Story

There will come a time, when people will speak to their maker,
and not know the difference. Japan or Jamaica? What is
Eurasian? Mongroid.

But before that day, it should have been known that we were
already dead. Anything goes, but how did the story begin?
Professor. Donda West, they know the difference between
health, color, and intelligence. "They" choose and withhold.

Patricia Smith, where was Audre Lorde born? Cicely Tyson, I
never killed, but now that I speak, please tell me how far we are
from home? Watcher.

President Obama, your mother died of breast cancer. She was
mounted by a dog. She didn't know the difference. The melanin
was lent to your father, so we could read our freedom into a
myth. What is the percussion of rebirth? Bush Woman.

Nigger be crazy, so black, I can't find my womb. Dick Gregory, you
know they kill us with the

food. How many children you have? Professor Paula, I am Ida:
"You are naked." You must be God. You make too much sense.
Yonkers.

First Lady, it must be a height thing. Lesbian means you know
 where you came from. Seven Sisters, I must be a
 transformer. Confusion, or manipulation? It's not language, it's
 volume. Maybe 6'5 is more appropriate. Italy, we were always
 family. The weeding of in-house crusty tribes was urgent.

About Ghana, Yale is a metal lock. Who made the keys? Angela
 Basset or Jennifer Lopez.

Mexico was a layover. I fly redeye. Sarah, you went to Brown

If this is my dream, who is clocking me? My entire existence has become a snapshot for the intellectual capacity for emotional understanding.

There are really good people in this world, who-are surrounded by predators. There are humans who, at optimal capacity, are tinkered drones.
But many cannot tell the difference.

Chronologically speaking, it never made sense how the Europeans came over with their germ-warfare and shotguns and bled this land. The technology did not match the intelligence of the Caucasoid. The same goes for a digital economy that annihilates the planet from computer screens.

What are the origins of our technology? A dog and a wolf are classified under the canine species. But these are very different creatures. Thirteen Bloodlines of incest putties the blood. The question remains: "Who is her Mother?"
